

OUR PROFILE

We are a technology and business focused innovation hub founded in 2016.

We focus on setting up collaborative work spaces, youth capacity development and building companies

TechBuzz hub is born out of technology and business. These are central to our vision and mission for the company. - Henceforth ; we are a business and technology hub focusing on collaborative work space(s), capacity building and company(s) development.

Your idea needs nuts and bolts to start moving. We are here to help you develop your idea from inception to scale and growth.

We set out in 2016 as an innovation hub but we've managed to now become a destination for innovation, collaboration and startup development.

This has been achieved through institutionalization of our mandate to create various models of collaboration for startup companies and entrepreneurs.

During our first three years; 2017, 2018 and 2019. We have tested different products, programmes and services that have revealed a great potential to transform the African startup landscape and entrepreneurs.

In the same period we've managed to establish strong relationships with various stakeholders, companies and individuals.

OUR TEAM

TechBuzz hub comprises a wide spectrum of experts with various skills. Ranging from technology, business, social sciences and creative arts.

Our everyday progress hinges on flexibility, innovativeness and freedom of expression.

Therefore the hub is structured under different communities such as young professionals, entrepreneurs, startups, investors and mentors.

OUR SERVICES

Your idea has potential to change the world. That's why we would like to take the backing position, and possibly, best partners to help you fulfill your vision and dream.

We build startups through a number of services including:

- Co-working spaces.
- Startup clinic
- Startup incubation
- Capacity building and training

Co-working spaces: A combination of fully furnished office and business development services to enable companies to grow.

Startup clinic: A service designed to offer guidance to business/ company owners and entrepreneurs.

Capacity building and training: To equip you with the necessary skills and knowledge on your way to success.

Startup incubation: Through which we'll help you maximize available resources to achieve business excellence

OUR ACHIEVEMENTS:

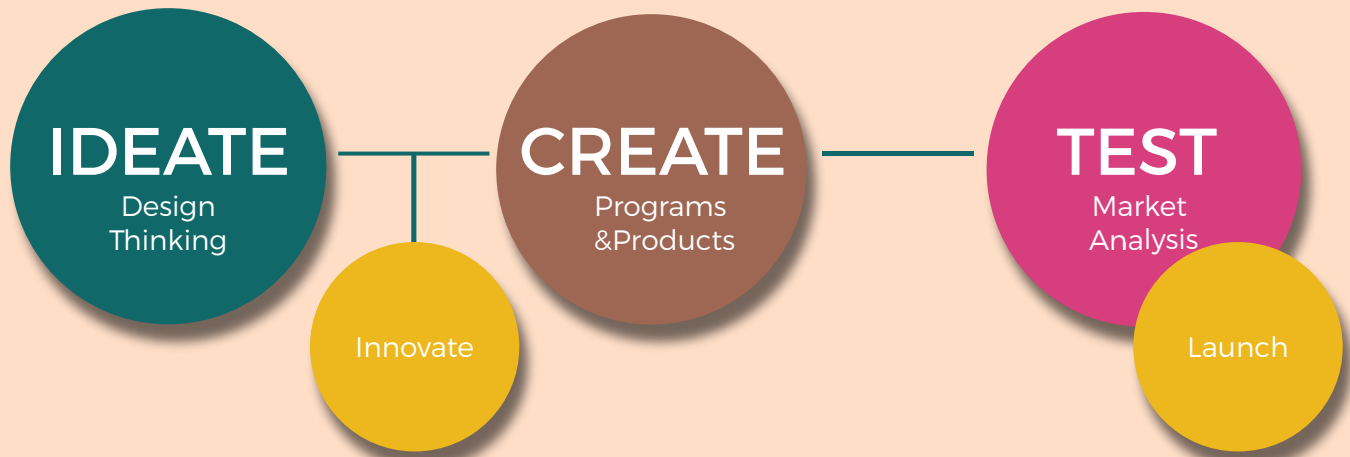

We have four major achievements:

- 1 Innovation space opened in (2017) with capacity of twelve (12) startups, by 2019, we had expanded to twenty five (25) startups.
- 2 Three (3) actively running programs; the young professionals, the startup facility program and circles and meetups with an overall alumnus of 800 direct trainees
- 3 Have created the virtual space network - an industry and business support functions networking platform.
- 4 We have authored a rising entrepreneurs reference called the #StartupExperience

Other achievements include partnerships with the Ministry of ICT, Tony Elumelu Foundation, 5per5 and First Fortune.

OUR PHILOSOPHY

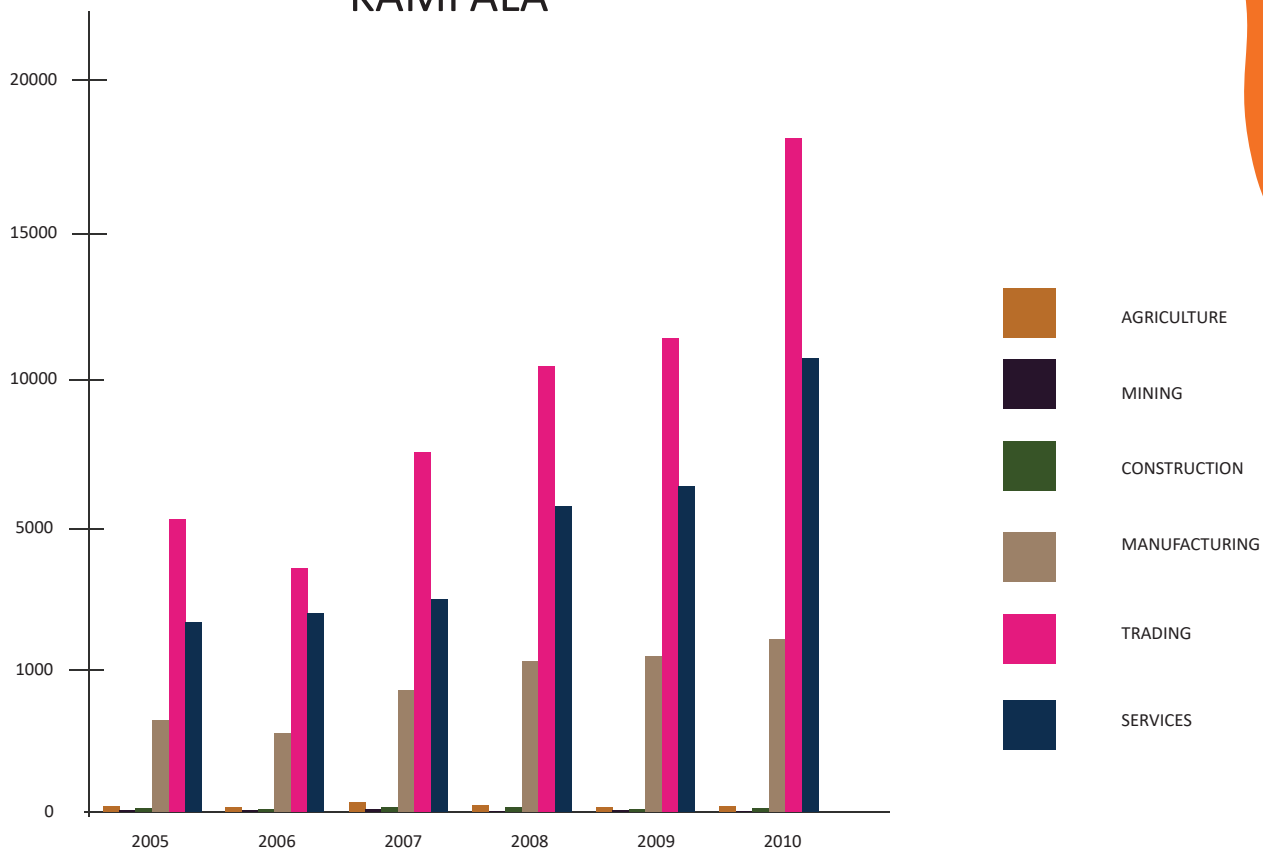

Vision: To create a space(s) that transforms ideas into successful corporations.

Mission: To create affordable workspaces that provide basic needs for young entrepreneurs or grooming companies and inspire you to solve today's supreme challenges in your societies.

Values: (Integrity, leadership, observation, results, innovation & creativity)

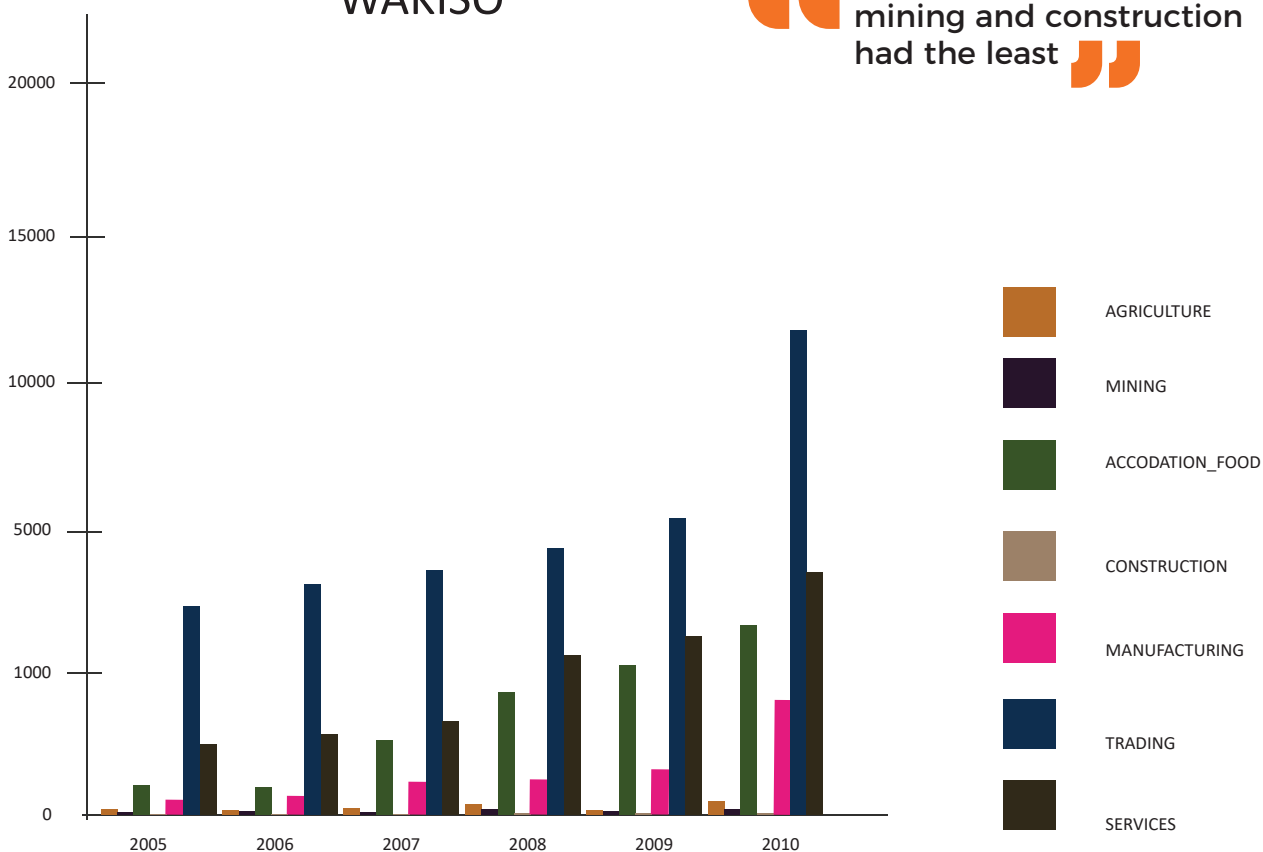

Empowering youth to become leaders in their economies through quality knowledge investment and startup business skilling and development
